

# McGEER TO GIVE TWO ADDRESSES

ON his way to Ottawa to appear officially before the Banking Committee of the House of Commons, for which he was specially invited, G. McGeer, K.C., Vancouver member of the British Columbia legislature, will break his journey in Edmonton on Monday and Tuesday and will deliver two of his famous addresses on finance and economics while here.

Mr. McGeer, one of the most forceful characters in Western Canada, achieved wide prominence

## B.C. PREMIER GOES THROUGH CITY FRIDAY

Grave Public Emergency Evoked Special Powers

Patullo Says

Hon. T. D. Patullo, the fighting premier of B.C., accompanied by his assistant, Major S. F. M. Moodie, passed through Edmonton Friday evening on the C. N. E. on his way to Ottawa, where he is to be engaged in conferences with Premier Bennett over the demand of the British Columbia government for a relaxation of conditions, inasmuch as British Columbia to work out the problem of employment for all its people.

Hon. Mr. Patullo looked fit and well, and in better condition, despite the recent arduous session, than on his former visit to Ottawa. "I don't think it would be proper for me to make any statement in regard to the coming conference with Premier Bennett," he said.

Asked about Premier Bennett's statement that the Special Powers Act of B.C. is ultra vires, but that he would not take any steps to disallow it, Premier Patullo said that he did not share Premier Bennett's view.

"We had the opinion of eminent counsel, which happened to be the opinion of our Attorney-General, Hon. Gordon Sloan, upon the constitutionality of the Special Powers Act," he said. "We are quite satisfied that it was attacked by the Special Powers Act would be upheld by the Privy Council. The powers granted by the province, just as the special powers taken by Premier Bennett are within the jurisdiction of the Dominion. We are faced with a grave public emergency just as we are in the case of the Special Powers Act. We are faced with the special emergency facing the province, which required the use of special powers in the government."

## WINE MAKERS FEAR BIG LOSS

LOS ANGELES, April 21.—In Washington the "powers that be" in the United States are doing something pretty quick to clear up the "bootlegging" situation. They are spending \$100,000,000 of pre-legal wine in California is destined to turn into vinegar within a few months.

Makers of approximately 100,000 gallons of "unauthorized" wine in this district also have appeared to the federal government, and have asked for permission to pay the required internal revenue tax in order to market their production before it turns into vinegar.

The revenue officials have said that under a ruling of Secretary of the Treasury Morgenthau, there is "nothing doing."

## WOMAN HELD AS KIDNAPPER

ST. PAUL, April 21.—Indicted on a charge of conspiracy to kidnap, a woman was held by the kidnapping of Charles Boettcher, II, of Denver, a sister-in-law of the late Denver banker, former treasurer of the Denver Stock Exchange, who was arrested in St. Paul Friday night and held pending arrangements for her removal to St. Paul, Friday night.

## California Urged To Tax Bachelors

SACRAMENTO, Calif., April 21.—A bachelor tax was suggested as a new source of state revenue by Finance Director R. A. Vandegrift today. A tax of \$100 a year on men less than 65 or more than 85 has been suggested.

## Hitler's Chief of Staff Declares Fight in Prospect

Storm Troops of Private Brown Army Prepared to Resist Any Attempted Invasion.

BERLIN, April 21.—Chancellor Hitler's private "brown army" of three million storm troops will resist any attempted invasion of Germany. This was the warning issued by Gen. Ernst Rehm, their commander, today as the German press used the word "ultimatum" in connection with the French note to Britain refusing to legalize German rearmament.

It was uttered in an address to foreign newspapermen and diplomats at the ministry of propaganda. Significance attaches to it in view of persistent rumors that France may in the near future suddenly present an ultimatum to Germany demanding cessation of German rearmament as violation of the treaty of Versailles.

Rehm said: "Reading a carefully prepared speech, Rehm said: "None may think they can obstruct Germany's fight with impunity. Any invasion from the other side of the frontier will not only be an army, but a whole people, fanatically and fanatically to defend their country to the last man."

"In this sense alone, will the existence of the storm troops make any future illegal attack on the new Germany such a risk that any aggressor will consider whether the possible gain is worth the risk."

Officially, it has been always denied that the storm troops have any political aims. It was the first time that a member of Hitler's cabinet (Rehm is a member without portfolio) has clearly implied their military character.

## ARSenal WINS BLASTS HOPE HUDDERSFIELD

League Championship Looks Safe Now for Gunners

LONDON, April 21.—The Arsenal won today and Huddersfield lost, which just about smashed any hopes Huddersfield may have had of taking the league championship from the Gunners. Arsenal now has a lead of six points over Huddersfield, and Huddersfield has three games to play, against two for the Arsenal. One more loss for Huddersfield, or one more win for Arsenal, and the league championship looks safe for the Gunners.

A crowd of 113,400 people saw the Arsenal's superiority throughout the entire match, ramming in goals in the first half with the wind and then getting three more in the second half despite playing against an increasing breeze. Harry Pearson, now in jail for the murder of Sir Robert, was the Arsenal's star, scoring two goals. W. G. Nicholson scored two of the Arsenal's goals, the others being scored by the veteran internationalers, R. McPhail, D. Main and J. Smith.

when he fought for reduced freight rates for the west, successfully carrying the case of Alberta and British Columbia for equalization of freight rates before the Board of Railway Commissioners in the face of every legal obstacle which could be contrived by the leading lawyers of Ontario and Quebec. The fight lasted for over two years and was an epic legal battle.

During the hearings of the Macmillan Banking Commission at Vancouver, Mr. McGeer appeared before the commission as representative of the Vancouver Trades and Labor Council and his brief on that occasion caused widespread comment. Subsequently he took a prominent part in the recent election campaign in British Columbia and, following the campaign, appeared on the platform in a series of addresses. The first entitled "The 17-oney Changers in the Temple" was a scathing attack, and this address was the subject of his first appearance in Edmonton at the Empire theatre on Monday night. The theatre will open at 7:30 and it is predicted that every seat will be taken.

His second appearance here will be at a Chamber of Commerce luncheon meeting at the Macdonald at 12:30 Tuesday, when he will speak on "Credit: The Economic Power of the Twentieth Century." Both addresses will be broadcast by the new Taylor-Pearson Company station CFTP.

EDMONTON ALBERTA—SATURDAY, APRIL 21, 1934

## 200 Injured as 6,000 Reds Fight Howling Mob

Trumpeers Posted to Sound "Fire" Command, But Police, Carabiniers With Swinging Clubs Crack Heads, Fill Jails

PARIS, April 21.—A howling mob of 6,000 Communists and Extremists, emboldened over the government's economy pay cuts, engaged hundreds of police and armed police in violent skirmishes last evening that resulted in 200 arrests and injuries to about 200.

The bloody scenes of mob frenzy and riots early in February were recalled as flying squads of police charged through the streets near the city hall, swinging their clubs right and left in an attempt to disperse the rioting throng.

But the rioters threw a solid wall around the city hall and refused to be driven back. Before the officers' onslaught, riot rufuge in subway kiosks and continued to do battle.

Nearly 1,000 Jailed

One policeman separated from his fellow was badly beaten by the infuriated Communists.

The time early 1934 had been arrested and the riot driven from the city hall, the demonstration followed out by the demonstrators dispersed authorities took special precautions to station trumpeers at strategic points to sound warning blasts in case it was decided to open fire, but the rioters were not needed.

Heavy police and mobile guard forces smothered the threatened riot before it could get going. But before the demonstrators dispersed many heads were cracked in hand-to-hand fighting and cave windows were smashed.

Some quarters viewed the disorders as a sort of May Day rebellion.

Thirty-five postal, telegraph and telephone employees were arrested and 150 were dispersed by the police. The demonstrators, however, for insubordination in connection with the demonstration struck the government and the government economic directors.

# ALBERTA TELLS HOW IT FEELS ABOUT THE PREMIER'S CUT TO BONE

## CHEAPER MONEY; LOWER INTEREST; MORE EMPLOYMENT; LESS TAXATION

### UNIQUE RESULTS OF THE "PREMIER'S PLAN" CITED BY ARGUS EDITOR

VANCOUVER, April 21.—Australia is marching out of depression with practically the whole nation in step. Government budgets, federal and state, are all but balanced. Budget deficits, piled up, are being reduced on a plan. And the plan is working.

An adverse trade balance has been turned into a favorable balance.

Unemployment is being reduced slowly, but steadily. Less than two years ago it was 30 in every 100 industrial workers. Today it is barely 25 per cent.

Taxation has been reduced and there is demand for further reduction, based on the actual state of national financial recuperation.

Labor, on the same ground, is appealing to the courts for restoration of enforced wage cuts.

"It was the farmer who pulled us through. Yes, the farmer and the banker," says Roy L. Curthoys, keen-witted, headstrong, and state, and a member of the Melbourne Argus, who is on his first visit to Vancouver.

### FARMERS BORE THE BRUNT

But, on cross-examination, Mr. Curthoys, a life-long newspaperman, admits that there may have been more to it than just farmers and bankers. Farmers may have borne the brunt. Bankers may have co-operated to an extent rare in bankers.

All the people of the nation, with few exceptions, were in on the co-operative effort that saved Australia from bankruptcy and set it on the road to better things and times; that set an example that other parts of the world follow but slowly, if at all.

It may have been the courage of desperation that brought it about. Conditions in Australia were very desperate when national action followed a frank facing of facts and inevitable results if things were allowed to drift.

Radical things were done. They may have been done in desperation, but the main thing is that they were done.

Perhaps the biggest of them all, says Editor Curthoys, was cutting down the ruinous overhead of interest on government and private debt, domestic and external.

### GOVERNMENT TOOK INITIATIVE

And, "believe it or not," the facing of the situation and the call to national action came from joint deliberations of the federal and state governments.

(States in Australia are like Provinces in Canada, but with the difference that there the States have the basic authority, part of which is delegated to the federal government. It is the reverse of the Canadian government system, Editor Curthoys explains.)

Here is his story, roughly summarized.

In 1929 was £28 millions. By 1931, when the situation was finally and squarely faced, the national income had dropped from £500 millions to £400 millions. It was dropping alarmingly. Production and the primary products of the primary industry were dropping alarmingly. Shorter after came a fall general in the price of the primary products and this was equally calamitous. All the while the primary industry was fundamentally a primary producer and does little manufacturing.

**THE PREMIER'S PLAN**  
The problem was insistent and staggering. It was the Federal Prime Minister, Mr. Scullin, who called by calling a conference of the state premiers. From the conference emerged what is called the "Premier's Plan." Incidentally the Premier's conference was functioning. It meets from time to time to discuss the situation.

The Premier's quickly set up a commission of economists and financiers.

## Almost Instant Relief From Neuralgia

**FOR QUICK RELIEF TRY ASPIRIN WHEN YOU BUY**

Now comes amazingly quick relief from headaches, rheumatism, neuralgia, — the fastest relief ever known.

These results are due to a scientific formula by which Aspirin Tablets break down to dissolve, or disintegrate, in the amazing speed of a few minutes after taking.

And hence to start "killing" loads of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly after it is put in water.

To go on work almost instantly.

Buy Aspirin Tablets on a guarantee against substitutes. To be sure you get ASPIRIN's quick relief, be sure you have Bayer's term "Aspirin" across on every tablet of Aspirin.

**WHY ASPIRIN WORKS SO FAST**

Drop an Aspirin Tablet on a glass of water. Watch it disintegrate. (It touches bottom, it has started its fast action.)

**Does Not Harm the Heart**

### Australia's Achievement

1. All adjustable expenditures were reduced by 20 per cent or more. Taxation was increased by 10 per cent.
2. External government debt, interest, state and federal, was converted voluntarily, the rest were then forced to accept by legislation.
3. External government debt, interest, state and federal, was converted voluntarily, the rest were then forced to accept by legislation.
4. Banks, operating voluntarily, reduced mortgage interest by approximately 25 per cent.
5. Private mortgage interest was reduced 25 per cent through legislative compulsion.
6. All minimum wage rates were reduced by 10 per cent by legislative compulsion.
7. External value of Australian currency was stabilized at 25 per cent but the domestic value was maintained at 100 per cent. This was done through the Commonwealth Bank, an Australian institution.
8. Exports were increased in volume and value, despite their gross domestic value and reduction in price.

sure officials to prepare a plan. They took no time, reported back with recommendations and were accepted by the conference and put into effect by the government.

The fundamental idea of the plan was to sacrifice from every section of the Australian community, but to keep the government out of the picture.

The primary object of the plan was to reduce all adjustable government expenditure and to reduce all adjustable private expenditure. This was done by cutting civil service salaries and other public salaries, by dropping unneeded public services, by reducing capital expenditure on public works to a minimum consistent with the necessities of employment.

The plan also provided for a reduction of 500 million pounds in government debt, and a reduction of 25 per cent in the interest rate on government debt.

### PATRIOTIC CONVERSION LOAN

A nationwide patriotic campaign for the conversion loan, similar to the American war bonds, was voluntary conversion of 90 per cent of the government debt.

At the close the 10 per cent minority were compelled by federal legislation to accept the reduced interest rate.

"That may have amounted to a sacrifice, some people think it was and they may be right. But the sacrifice was overwhelmingly in favor of it. And there was no sacrifice on the part of the government," Editor Curthoys explains.

Taxation was increased. The sales tax was increased from 10 per cent to 15 per cent. The income tax was increased sharply. The estate tax was increased. The difference in tax on "earned" or salary income was increased. The difference in tax on holdings or capital income was increased.

### BANKS CUT INTEREST

Australian banks, in voluntary cooperation with the government, reduced their interest rates to approximately the same extent as the reduction in government bond interest.

(Today bank interest in Australia on ordinary loans averages 5 per cent, the lowest rate in many years.)

Private mortgage interest rates were reduced by 25 per cent by legislative compulsion.

Basic (minimum) wages of all workers were reduced by 10 per cent by legislative compulsion.

Unions are now appealing to the government to reduce wages of their members and employees. Irrespective of the legislation reducing wages, the unions are appealing voluntarily on wage reduction averaging from 10 to 15 per cent.

With the basic (minimum) wages adjusted, wages of the unskilled and semi-skilled workers have suffered net wage increases of 10 per cent.

The Commonwealth Bank, which has come to function in Australia as the central bank, is still in sole control of foreign exchange.

### CURRENCY DEPRECIATED ABROAD

It allowed the external value of Australian currency to fall to 25 per cent but held the internal value stable and practically unaltered.

Drop in the external value meant an increase in the internal value of returns from exports and particularly from wool. This was a great factor in the growing demand to have a rate of exchange value.

## English Film Star Now Favorite of Hollywood

No, not Janet Gaynor—It's Heather Angel, petite and charming, whose film successes have multiplied since she came from England to Hollywood.

## ALBERTA GRIN DISCRIMINATED AGAINST IN B.C.

Continued from Page One

cover brought a premium of three and four cents over Manitoba and Saskatchewan wheat shipped by Atlantic ports.

**IS NOT INFIROR**  
Alberta wheat is not inferior to the wheat of Manitoba and Saskatchewan. On the contrary Alberta wheat is acknowledged to be a better wheat than that of the other provinces of Canada together.

How does it come then that on the Liverpool market, Alberta wheat is graded six cents a bushel lower than Manitoba and Saskatchewan wheat? What is the reason in the woolly? One thing is clear: when Alberta wheat leaves Alberta it is equal or better, grade for grade, than the wheat of Manitoba and Saskatchewan.

What change has taken place since the days when the government brought a premium of 3 and 4 cents a bushel over wheat of other provinces from Manitoba and Saskatchewan.

There has been a change of government at Ottawa, but the change suggests that growing wheat farmers have been forced to accept the change of government there has been a change in policy.

## Alarm Clock Saves Four From Flames

CHICAGO, April 21.—The shrill summons of an alarm clock saved the four children of Albert Schick from death by carbon monoxide fumes.

Sometime during the night coal gas accumulating in the furnace exploded, filling the cottage with fumes.

The clamor of the alarm clock awoke the children, who fled to the street. A group of fire department scouts resuscitated Ida, twenty-five. Dolly, eighteen, and Bert, sixteen.

The children were taken to the hospital. The mother, Mrs. Schick, was found unconscious in the street.

## VOLEYS FIRED AS MADRID FACTIONS RIOT

Extremists, Fascist State Vicious Battle at Newspaper Plaza

MADRID, April 21.—Four young men were wounded gravely during a sharp gun battle last night between extremists and Fascists in front of a newspaper office on a busy thoroughfare in the heart of the city.

Extremists poured volleys through windows and doors of the newspaper plant, that of the important El Debate, and a group of Fascists, converging rapidly, returned the fire until assault guards, responding to a hurried riot call, quelled the disorder.

Government officials later expressed the opinion that the gunfire was directed at youthful Popular Apearans who, with a number of Fascists, were attending a national conference in suburban Recoletos.

The shooting broke out after a night of calm. The gunfire was directed at youthful Popular Apearans who, with a number of Fascists, were attending a national conference in suburban Recoletos.

## BOY INJURED, THUG KILLED IN GUNFIGHT

### Police End Career of Desperado Mob in Nebraska

braska

LINCOLN, Neb., April 21.—A spectacular gun fight between police and gunmen on Lincoln's main street yesterday cost the life of one desperado and the wounding of a 13-year-old spectator and gunman.

Hundreds of spectators watched the battle as the desperado, a blond, handsome, and a group of Fascists, converging rapidly, returned the fire until assault guards, responding to a hurried riot call, quelled the disorder.

Police officers Frank Robinson and Volcott Condit had pursued the mob when one of the gunmen refused to drop his weapon after the police had fired a shot through the heart and killed him.

The gunman, who was named immediately. His companions, Walter and Fred, were taken to the hospital. The shooting broke out after a night of calm. The gunfire was directed at youthful Popular Apearans who, with a number of Fascists, were attending a national conference in suburban Recoletos.

SHUTTING OFF THE SUPPLY OF NEW MONEY

The mining of gold has been the most—and almost the only—reconstructive factor in Canada's economic life for the past ten years.

And the buying power of gold multiplied from two to three times as commodity prices slumped.

Naturally, gold mining took on a new lease of life, because of the depression. Idle mines went back into production. Working mines were expanded. New ones were opened. Exploration and development work started anew in every mining region in the country, setting men to work and putting wages and expense money into circulation.

When President Roosevelt devalued the United States dollar and bid the price of gold up to approximately \$35 an ounce, the prospect of unlimited expansion opened before the gold mining industry in Canada. At that price, mines yielding only low grade ore became immensely profitable. Northern Ontario and British Columbia have been the scenes of intense and increasing mining activity. At Great Bear Lake and elsewhere exploratory and experimental operations have been set in motion.

Millions of dollars have been spent in plant and preliminary work across Canada, with a view to working low grade deposits. Even the "tailings" of old mines are being worked at a profit. While investment in every other direction was static or receding, a gigantic new investment has been made in the mining industry, and preparatory operations, largely for the purpose of working ore which could only be profitably worked at the present high rate of return for the gold produced.

The still more important fact, from the public standpoint, is that every ounce of gold produced in Canada has been put into circulation in the form of money in circulation in Canada. Most of it in active and immediate circulation, since it is an established rule that the gold produced in the mining industry goes into circulation through the gold mining industry.

Last year some 100,000 new dollars went into circulation in Canada by reason of the gold that was produced in the mining industry, and the gold was used for a continuance and acceleration of this flood of new money into the dry channels of trade.

Whether business is depressed or not, the buying power need not be argued; it is obvious. The new budget levies a tax of 10 per cent on all gold sold in the country.

Since gold cannot be exported except through the mint, it means the entire product of Canadian mines. A tax on the product is a tax on the source of production. The mines are therefore being taxed on the wages they pay, the machinery they buy, and the whole cost of their helpful operations.

Mines working rich ore might be able to stand this tax, heavy as it is. Mines working low grade ore cannot. These mines have to close if the impost is insisted on. The low grade ore they have been working will cease to be of any much use.

There is no doubt that this new tax on the branch of the industry will pass out of employment—and probably into relief camps. The money spent in filling in old mines and opening new grade ore mines for operation will become "frustrated assets"—otherwise dead losses.

What has happened is a simple exchange: those who mine know the effect of the tax. The immediate result is a stoppage of supplies and capital for exploration and development purposes. Producing mines which cannot finance themselves from day to day will be in trouble, for they can not look kindly on loans and overdrafts to continue whose chances are sliding downward and whose prospects are suddenly dimmed.

As might be expected, the mining men have been protesting to the Government, and asking for a modification of the tax. Their interest is sincere only to the extent of the public. Canada needs an increase in the money supply, and an increase in the money supply, such as has been coming directly from the mining of gold. The effect of the tax is simply the application of one and the same measure of money restriction.

That may or may not be what Mr. Rhodes aimed to do. That is the question.

The business interests of Canada should look the miners in demanding that this blow at the mining industry be stopped.

Our national set-up in our country is such that the money supply will neither enlarge the money supply itself, nor permit the gold miners to do so, what hope or chance is there of anything but continued stagnation along all the avenues of trade?

## RESTORE AIR MAIL

Boards of trade and business interests throughout the west should, and doubtless will, give active support to the effort started by the Winnipeg board to effect a resumption of air mail service between the western centres.

Two years ago Canadian Airways planes were flying between the western cities on regular schedules, providing not only a fast mail service but a fast passenger, express and freight service as well. The mail contracts were summarily cancelled. What followed showed that without these subsidies the air lines could not continue to operate. Services became intermittent and were finally cancelled.

Now western business is practically limited to northern Manitoba and the Mackenzie region. In the settled parts of the west, regular services have ceased. There have been reports that a resumption of air mail contracts may be made this fall, which perhaps accounts for the action of the Winnipeg board of trade in urging that this be done.

All the western cities have established air ports with more or less complete facilities for housing and servicing planes. Their combined efforts have resulted in the construction of upwards of a million dollars. In addition there was expenditure in providing emergency landing fields, and in erecting the buildings which are flying, the latter expense being borne by the Dominion. This investment is at present only giving a meagre return in use, and is in no prospect of serving the purpose for which it was made unless the planes are again brought into use as mail carriers between Winnipeg and the further west coast of the continent.

Anything that can be done to restore that service, and give commercial flying the assistance it formerly secured from the mail subsidies should be done.

Any such plan should be done to restore that service, and give commercial flying the assistance it formerly secured from the mail subsidies should be done.

Any such plan should be done to restore that service, and give commercial flying the assistance it formerly secured from the mail subsidies should be done.

## The Passing Show

By J. S. COUPER

Some newspapers have all the luck. I've been reading Charles Kingston's "Romance of Monte Carlo" in which he tells of the handsome side of the life of the famous gambling hall on the Mediterranean. In the gambler, Francois Blanc, had been a waiter.

Liberated from a French jail after serving time for fraud, he and his wife, a German servant girl who had wooed him with a shrewd plan in her hand, decided to stake their fortunes on the barren rock of Monte Carlo. The Prince of Monaco was willing to lease to them for gambling purposes.

Came a time when the profits of this glorified game of pitch and toss permitted the Prince to move from his dilapidated ramshackle home to a princely palace with uniformed guards, when the suave and acquiescent Francois Blanc, who had been a waiter, was able to spend millions on the casino and grounds, erect churches, pay the salaries of priests, take the salute of the ducal army and hobnob with European nobility. The German servant girl did herself proud too. She wanted to marry her daughters to royalty. She disdained the Prince of Monaco's offer of a princely dukedom for an option on him. Being a German she wanted no Monaco princes for her sons. She figured that the Prince of Monaco was a poor man.

Francis Blanc's hunger for respectability is reflected in the name selected for his mansion. He called it "The Casino." The name was a little high for the place where he lived himself and family. He headed a fund for a gorgeous new cathedral at Monaco and set aside half a million francs for the purpose. The press. One editor in Paris was given 25,000 francs a year on condition that he mentioned Monte Carlo in his articles. The ingenious editor fulfilled the contract by reporting daily the state of the weather at Monte Carlo.

## Disorders of the Gums

By DOCTOR FRANK MCCOY

The number of people with some type of disorder affecting the gums would surprise you, if you could stand here beside me and look over my shoulder while I am reading the letters sent to me each day. It is said that at least four out of five people develop some kind of gum disorder.

One kind of common trouble with the gums is that known as Trench Mouth. It was given this name because the soldiers suffered from it in the trenches. Its rapid spread is due to the fact that it is contagious and one with a mouth with lowered resistance in the gum tissues may easily catch it.

Pyorrhea is the name of another troublesome gum disorder. The popular name of these gum diseases is "Pink Tooth Brush."

The normal gum is a faint pink, firm, does not bleed or bleed, and gives the tooth closely, performing its normal function of supporting the tooth structure. Sick gums are exactly the opposite. They are soft, spongy, and bleed, and instead of holding the tooth properly, they shrink away from it.

Gum disorders impart a bad odor to the breath but a more insidious danger is advanced cases, they may bring about the loss of all of the affected teeth. The presence of unhealthy gum tissue, which is the cause of the pus pockets which often form, are absorbed. Many stubborn forms of rheumatism are made worse by the absorption of pus caused by a gum infection.

The most important cause of any kind of gum disorder is poor diet. A diet which is deficient in vitamins is a diet which is deficient in certain elements, the patient first suffers from the disease, and then the disease is not noticed and then gradually the gum disorder starts.

Lack of vitamin C in the diet is an important cause of gum troubles as lack of this vitamin lowers the natural resistance of the gum tissue. Foods rich in vitamin C are orange juice, lemon juice, and other citrus fruits, and raw cabbage. In order to do the gums a great deal of good it will be necessary to take an abundance of such foods.

It is also important to keep the gums clean and healthy. The patient should brush his teeth thoroughly and use a toothbrush which is changed frequently. It is also important to keep the gums clean and healthy. The patient should brush his teeth thoroughly and use a toothbrush which is changed frequently.

# BEAUTY, FUN AND MELODY AT CAPITOL

"Hips Hips Hooray" Stars

Thelma Todd, Ruth Etting, Wheeler Woolsey. Starting from an intricate duet where and winding up in a highly interesting complex, "Hips, Hips, Hooray," musical extravaganza starring Bert Wheeler and Woolsey with Ruth Etting, Thelma Todd and Dorothy Lee, is charged with imaginative comedy, melody and pulchritudinous femininity, all staged luxuriously.

The story of "Hips, Hips, Hooray," in keeping with the production, is mad merry and musical. Wheeler and Woolsey portray comedians of fruit-flavored lips who succeed in capturing a huge automobile concern headed by Thelma Todd and Dorothy Lee. Simultaneously they secure the hands and hearts of these maiden proprietresses. (Hark the villainous George Meeker, manager of the beauty salon.

To thwart the boys in their rapid business and amatory progress, Meeker directs the theft of \$10,000 into their hands, and they are unwillingly, literally fleeing from justice innocently, Wheeler and Woolsey hop into an unexpected racing automobile, and then make an insane dash for freedom across the continent in great country classic winding up amid laughs and melody in the surprise finish.

"Hips, Hips Hooray" is a decidedly large-scale musical entertainment with its magnificent settings, scores of beautiful girls, fun, tunes and grand production. "Keep Romance Alive," "Keep on Livin' What You're Doin'" and "Tired of It All"

# She Stars On Screen At Rialto

Elizabeth Allen

Leading British film star who recently "went Hollywood" has a leading part in the new picture, "The Lost Chord," playing Saturday and Monday at the Rialto theatre. John Stuart co-stars.

It is here where the action starts in the picture and some stirring scenes are witnessed as she fights a duel to the death with the nobleman.

How the child grows up and eventually becomes a great opera singer.

In the supporting cast, Wheeler and Woolsey have Ruth Etting, Dorothy Lee, Spencer Charter, George Meeker, James Burris and Matt Briggs.

# TWO FEATURES SCREENING AT RIALTO TODAY

Rex Bell Western and 'The Lost Chord' on Double Program

Those who attend the showing of "The Lost Chord" at the Rialto on Friday are today talking about this as one of the most beautiful stories ever filmed. It is playing today and Monday.

Taken from the immortal song composed by Sir Arthur Sullivan and featuring John Stuart, Mary Glynn and Elizabeth Allen, it is truly a show that brings home to one the beauty of life and also touches upon the more tragic sides.

David Graham a brilliant musician and composer in the early years of the present century to seek his fortune in America, leaving his sweetheart behind.

Quickly mounting the ladder of success he returns in five years only to find that his beloved through straightened circumstances has been forced to marry a profligate gambler and a girl is born there.

# Display Of Beauty Now At Capitol

Barbara Stanwyck

Barbara Stanwyck will be the stellar attraction at the Strand theatre today in her latest picture, "Gambling Lady," a film based on the thrilling dramatic story by Doris Malloy.

Miss Stanwyck has the gay and sporting role of a square shooting gambler who plays the game of life with a courage few persons would venture to touch away from her husband from whom she knows he is innocent.

The picture is set in the gay and sporting life of the city where the idle rich are taken over the jumps.

There is a talented cast in "Gambling Lady" with Crea and Pat O'Brien share honors as masculine rivals for the love of this gambler.

Others in the cast include such talented players as Joan Blondell, Phil Faver, Robert Barrat, Robert Elton, Ferdinand Gottschalk, Arthur Vinton, Willard Robertson and Arthur.

George Burns and Grace Allen have never spent a day apart in the seven years of their marriage.

# Princess Books Musical Revue

Peppery Ginger Rogers tips all her film roles for thrills, comedy and romance in the musical extravaganza, "Flying Down to Rio," when she straddles the fuselage of an airplane and sails through the skies over beautiful Rio De Janeiro, the picture is at the Princess theatre.

Her performance is part of the spectacular film's climax, when some 200 beautiful girls are sent to sing the words of the musical show, dancing and singing on the top of planes, tripping the light fantastic on thin air as they tumble earthward in parachutes.

The cast of "Flying Down to Rio" includes Dolores Del Rio, Fred Astaire, Gene Raymond and Ruth Rogers. Thornton Freeland, directed. Vincent Knauer is the music director. Elicu and Gus Kahn the lyrics. Ann Caldwell the screen play, and Lou Brock, supervisor, contributed the original story.

# EMPRESS HAS APPLE ANNIE

May Robson, "The Grand Old Lady of the American Stage," observed in September her fiftieth anniversary on the stage and screen.

Jean Parker, hailed as "The Most Sensational Discovery of the Year," was eighteen in August.

Imagine the delight both of them when they at last found themselves working in the same picture. It was in "Lady For a Day," which opens a three day engagement Monday at the Empress theatre.

Miss Robson plays the part of "Apple Annie," a lovable old street peddler who secretly is a lovely young girl.

# Fred March At Capitol Wednes.

The comic drama "Death Takes a Holiday" starring Fred March, opens Wednesday at the Capitol theatre for a three-day run. It is March's most bizarre and interesting role since his history-making part in "Dr. Jekyll and Mr. Hyde."

Jack Mulhall, a star in his own right on the silent screen, plays the role in West's picture. "Ain't No Sin." Others added to the production are Katherine DeMille, daughter of Director Cecil B. De Mille, Stuart Holmes, Harry Woods and John Miljan.

help her in this pretence, and she carries off the situation happily. Among the other players in "Lady For a Day" are Warren William, Guy Kibbee, Ned Sparks, Glenda Farrell and Jean Parker.

# Connie Bennett Dreamland Star

In directing "Moulin Rouge," the new musical starring Connie Bennett, Sidney Lanfield had a fund of personal experience upon which to draw for theatrical color.

As a boy of 14, he played the piano in a cabaret called "The Movie Inn" then he worked his way through Chicago University as a professional ivory-pounder in night clubs and by making Ampico rolls; after that he spent six years on the road as a vaudeville comedian. So he has seen the life of a professional entertainer from all angles.

opening Monday at the Dreamland theatre, their Connie Bennett in the dual role of a wife with footling aspirations and a French diuise.

# THE LOST CHORD

Elizabeth Allen, John Stuart

Leading British film star who recently "went Hollywood" has a leading part in the new picture, "The Lost Chord," playing Saturday and Monday at the Rialto theatre. John Stuart co-stars.

It is here where the action starts in the picture and some stirring scenes are witnessed as she fights a duel to the death with the nobleman.

How the child grows up and eventually becomes a great opera singer.

In the supporting cast, Wheeler and Woolsey have Ruth Etting, Dorothy Lee, Spencer Charter, George Meeker, James Burris and Matt Briggs.

INTIMATE GLIMPSES AND  
INSIDE STUFF ON THE  
MOVIE COLONY

By DAN THOMAS

HOLLYWOOD, April 21.—You've often heard the remark, probably, that when it comes to depicting real life producers have to resort to invention. That's because their studio duplicates of scenes are more realistic than the real.

The latest example of this fact is reported in the theatrical weekly, "Picture Post," which says that Robert Montgomery, Goldenway production chief, went to San Francisco to line up scenes for "Barbary Coast."

He found that the real life scenes were more realistic than the real.

He found that the real life scenes were more realistic than the real.

He found that the real life scenes were more realistic than the real.

He found that the real life scenes were more realistic than the real.

He found that the real life scenes were more realistic than the real.

### GOOD GAINS RECORDED ON WHEAT MART

WINNIPEG, April 21.—Contractive buying, mainly for shipment abroad, sent wheat prices sharply higher on the Winnipeg Grain Exchange today, with gains of 4 to 10 cents.

Traders described encouragement from exhibited strength throughout the morning. An upward thrust near the close left final figures recorded on peak levels.

May wheat closed at 83½, July at 86½ and October at 88½ cents.

## NEW HUPS ON SHOW AT MILLS

The newest of the Aerodynamic type of automobiles, the new Hupmobile series 4213 for 1934, has arrived and is on exhibition at Mills Motors. These cars incorporate many features not found in any other of the modern streamlining designs which have been introduced this year. F. W. Mills has the following to say regarding these new cars:

An entirely new line of six and eight cylinder cars, incorporating advanced features of body design known as the Aerodynamic, with ultra-modern streamlining is being introduced by the Hupmobile Corporation. Mounted on highly developed chassis designed to provide maximum performance, the new body is bound to create attention wherever it appears because of its contouring, which is so advanced that at first glance its appearance suggests a plane at the wheel.

The new cars are mounted on wheelbase lengths of 121 and 127 inches. The 121-in. car is powered with a 6-cylinder and the 127-in. with a straight-eight engine. The classic and body have been designed together as a unit.

**GOOD VISIBILITY.** One of the features of the Aerodynamic body is its high degree of visibility. The windshield is much wider than normal and has been brought back close to the steering wheel, giving the driver a much greater range of vision than is usually the case.

The body is practically all-steel construction, the only wooden parts being the floor board, roof rails and a few trim sticks. In this new body the front seat is nearly six inches wider than in previous models. The front seat is adjustable four inches forward and back, taking care of any stature. The entire body has been mounted with relation to the rear wheels, thus making the rear seat entirely above of the rear axle.

**ROOMY.** In the drive of the baggage compartment at the rear of the car there is space for the spare wheel where it can be securely locked and kept free from dust, mud and water. There is also space in this compartment for tools.

The engine is not only more powerful for their displacement but performs with great smoothness. On both cars, a light type of piston is employed of the aluminum alloy type, a new engine mounting which also promotes smoothness has been adopted for the six and eight. The mounting provides a 4-point suspension for the engine.

## Symmetry Features New Hup Rear

Wholly unlike conventional design is the symmetrical rear quarter of the four door, five passenger Hupmobile Victoria with recess spare wheel and water-tight luggage compartment. There are no unsightly obstructions or projections on the rear of the car.

A new type of connecting rod bearing is used on these new engines. The lower end of the connecting rods no longer have a bore and finish honed surface. The oil pump also has been given particular attention. On the six for instance, the delivery has been increased from about 35 gallons per minute up to 50 gallons per minute.

**COOLING SYSTEM.** The cooling system on the radiator core is greater to the motor equipment than any which has previously been made by this company. An air-cooled generator is now employed so that it is possible to have a higher charging rate thus allowing for radio and other electrical equipment. The new generator is driven by belt instead of by chain as in previous Hupmobiles.

Because of the "coordinated suspension" adopted for this and other Hupmobiles, they are easier riding than previous models. Additional flexibility has been provided in the longer front springs, particularly giving the same effect as claimed for independent front wheel suspension.

The rear springs are also long and more than usually flexible because it has been made possible to do this through the use of the sway eliminator, which permits

flexibility in a vertical direction but eliminates any rolling tendency. The shock absorbers are thermostatically-controlled. They are double acting and are designed particularly for the spring.

are three types of body available. All of the Aerodynamic type. There is a six-passenger sedan, a five-passenger victoria and a three-passenger coupe with rumble seat. All of these bodies have the ultra-modern streamline effect above described.

Mounted on the new chassis there

## Your Fate Is In Your Hand!

By JOSEF RANALD

Has fate marked you for fame? If so, Maria Jeritza, celebrated opera singer, you have a circle underneath your third finger, you are very tall, you become noted for some particular talent. This sign is a mark of particular success and distinction and is very often seen on the hands of singers, musicians and public speakers of note. It is called THE CIRCLE OF FAME.

Maria Jeritza was born at Brunn, Austria, and the operatic career of this beautiful prima donna has scored her the enthusiastic plaudits of two continents. She is first thrilled to her exquisite soprano voice when she made her debut at the Imperial Opera House, Vienna, in 1902, where she sang until she came to the United States. Her American debut was made at the Metropolitan Opera House, New York City, and there she repeated her Viennese successes. No fame is more coveted by singers than this. Her greatest triumphs have been in the roles of La Traviata, Fedora, Thaïs, Samson, The Tore, Siegfried, Der Rosenkavalier and Turandot, in

**BOYS DISPOSE OF \$8,000 IN BILLS FOR \$3**

CHICAGO, April 21.—Three boys who stole \$8,000 in currency and sold it at a huge money for \$3 were surprised to find it was genuine.

They were picked up as burglars' suspects and admitted breaking in to the home of Mrs. Florence Campbell and taking everything in sight, including the \$8,000 in large bills.

The boys aged fifteen and seventeen, admitted they took the money to a friend.

"That's stage money," the fence told them. "I'll give you \$2 for it to take it off your hands. It's a good deal better than nothing. Get it pronto if it's found on you."

**Lama Mission At Hong Kong**

HONG KONG, April 21.—A party of 50 Tibetan lamas and their servants arrived here yesterday en route to Nanking to tell the Panchen Lama, for 10 years, that the people of Tibet want him to succeed the late Dalai Lama as ruler of the land.

The Welland canal connects Lakes Erie and Ontario.

## Toast Makes Ordinary Dishes Very Attractive

By SISTER MARY

Many home-makers find the family luncheon particularly difficult in springtime. Every minute of a spring morning is precious, what with gardening and the lure of outdoor sun one wants to spend time fasting over food. Languid appetites, however, must be tempted. New vegetables are still so expensive to be bought in great variety and a lot of effort is not desirable, so it's up to the housewife to find some way of presenting the old friends in new and interesting guises.

Toast is one answer to the problem. When a frame-work of many little food items become interesting. Sister Mary has a toast sandwich, a glass of milk and fresh or stewed fruit make an ideal luncheon for either children or adults. Such a meal takes but little time to prepare and is nourishing and attractive.

**MEAT-VEGETABLE SANDWICHES.**

Very often meat can be combined with vegetable to great advantage. Some of these combinations make a salad unvarying, while others demand a crisp salad of some sort to complete the meal.

The open sandwich furnishes an excellent means for serving delicate spring vegetables in their own juice. The toast absorbs the moisture clinging to the vegetable and also acts as a "strutcher."

Creamed meats, fish or vegetables are wholesome "fillings" for men or clover sandwiches. Here again meats and vegetables can be combined to good advantage from the standpoint of food value as well as economy and time. Such sandwiches simplify serving and save dish washing.

Toasted sandwiches are very ac-

ceptable for breakfast, too, and the novelty of them makes it possible to serve of pick puddle on it will be well received by everybody.

**BREAKFAST SANDWICH.**

An excellent breakfast sandwich combines toast, spinach and poached egg. Spinach is a particularly happy choice for breakfast because it cooks so quickly. Wash it carefully the night before and put in a tightly covered container in a cool place. In the morning cook in the water which clings to the leaves. When ready to serve drain and chop. Season well with salt and pepper and butter and pile lightly on hot buttered toast. Top with a poached egg and serve piping hot.

Hot, crisp broiled bacon with sliced tomatoes between thin slices of hot buttered toast is a good combination for any meal of the day but is quick and easy for breakfast when used usually cooked for meat. Crisp lettuce may be used in place of tomato or may be added to the tomato-bacon combination.

**BACON AND CHEESE SANDWICHES.**

These sandwiches with pickled beets cut in fancy shapes as a garnish and a slice of hot pickle cut in fan shape are delicious to serve with coffee for an evening "brack."

Remove a slice from this slice of bread. Butter one side of bread very lightly and cover with a thin slice of cheese that is the same size as the bread. Arrange a thin slice of bacon cut in thirds on the cheese and toast in a hot oven or under a low broiler flame until the bacon is crisp.

**Monday's Menu**

**BREAKFAST:** Stewed rhubarb, cereal cooked with raisins, cream, open spinach and egg sandwiches, milk, coffee.

**LUNCHEON:** Open sandwiches of creamed salmon, peas, carrot sticks and jelly roll, milk, tea.

**DINNER:** Boiled smelt, shoulder of pork, brown rice, baked green beans, stuffed prune salad, lemon sponge pie, milk, coffee.

**They couldn't match Hupmobile quality so Hupp matched their price**

This big four-door Sedan with the beauty of air-line styling—a true Hupmobile in every respect is priced at \$1510 Delivered

See the big, roomy \$1510 Hupmobile 4-door Sedan at our showrooms

In the past few years, many people who would normally own Hupmobiles—people who appreciate quality, have had to forego fine-car ownership. But now an exciting new automobile has solved their problem overnight!

And what's more, this new car is a Hupmobile of thrilling new Aero-dynamic design...in either a big four-door Sedan or a smart Coupe. And it's a car built with absolutely no compromise—none of the usual "skimping" so often found when costs must be kept down.

You won't believe your eyes when you see these cars and realize their low list prices. Everything about them has that fine-car quality which you would naturally associate with Hupmobile.

And the performance is true Hupmobile performance—but that's too good to describe...Better drive one yourself and see what we mean. Bring your present car along for an appraisal.

Four-door Sedan and 3-passenger Coupe \$1510 Delivered in Edmonton, tax and optional equipment extra.

# Western Storm Disturbed By Jap. Asia Warning

## REACTIONS COME AS TENSIONS HEARD

### London Says America Must Take Initiative if United Front Desired—All Proceed With Caution.

Japanese warships against assistance to China that might lead to political meddling brought forth three reactions in world capitals Friday.

Tokyo—High sources believed the manifesto, described by diplomats as "sincere" and "a Japanese Monroe doctrine," might check relations between American-Japanese relations.

London—High authorities said Great Britain's far eastern policy will be cautious and that the United States must take the initiative if it wished a united front of western powers against the Japanese move.

Geneva—League of Nations declared the only political aspect of a league project of giving technical, economic, and financial aid to China lay in its attempt to make China stronger and more united.

Paris—The foreign office was to be communicating with Washington and London regarding the exploitation of China.

## PIONEER PAIR PRIDE OF BUSH SETTLEMENT

### Near-Centenaries Socially by Hew Home, Comfort From Virgin Land

PERIVALE, Alta., April 21.—This little bush settlement is proud of the Bligh family.

Joseph Bligh is 90 years of age and his wife is 88. They are hearty and active and are carrying out a home for themselves on a bush homestead five miles out of Perivale. Already Mr. Bligh has built a comfortable home and has cleared eight acres of bush land with his own hands. Both these young old-timers are active in their needs and carry on their household work in the field without assistance. Their story is a real story of pioneering.

Joseph Bligh came to Canada from England at the age of seven and when he was 21 he married Mrs. Elizabeth Bligh at Grimsby, Ontario. Later the young couple moved to Dunbar, Alberta, and after living there for three years they moved to the present bush homestead. Following two years' residence in the U.S. they came to Canada in 1911, and were there when the war broke out. They lived in the bush for two years, and then giving up the bush life they came to the Canadian Expeditionary Force and got away from it, serving for two years before it was discovered that he had in reality been 75. He had passed his 75th birthday before he was discharged and went back to Canada.

The couple remained there until the year when they decided that they would like to go home. They chose a homestead near the town of Perivale, and here they have lived for the past three years. They have a large family of five children and a number of grandchildren. They are very active and are carrying out a home for themselves on a bush homestead five miles out of Perivale. Already Mr. Bligh has built a comfortable home and has cleared eight acres of bush land with his own hands. Both these young old-timers are active in their needs and carry on their household work in the field without assistance.

The Polish woman at the college, a young housewife, was a curious and brought him in a tin pail. So, she could get it at the house. She was a young housewife, a curious and brought him in a tin pail. So, she could get it at the house. She was a young housewife, a curious and brought him in a tin pail. So, she could get it at the house.

Classes at the show include flowers of all kinds, pot plants, vegetables and fruits, ferns, and garden competitions.

## Canada Fire Losses

EDMONTON, April 21.—The fire in Canada during the week ending April 18, were estimated by the Insurance Company of North America at \$400,000 compared with \$400,000 during the corresponding week last year. Fire losses from Jan. 1 to April 18 totaled \$1,400,000 compared with \$1,400,000 for the same period last year.

through the tunnel, and now he was on the streets of the city. There was only one house in his mind, and that was to get to Gypsy quickly. He was in a hurry, and he was in a hurry. He was in a hurry, and he was in a hurry. He was in a hurry, and he was in a hurry.

What she might do. He didn't think of his mind. He didn't think of his mind. He didn't think of his mind. He didn't think of his mind. He didn't think of his mind. He didn't think of his mind.

## FREED OF MURDER, BUT CONVICTED OTHER CHARGES

PERIT, Ont., April 21.—Dr. William Pratt, an aging old man, shifted slowly back into his police cell last night acquitted on a charge of murdering the woman who rode him 25 years as housekeeper, but condemned to penitentiary for the next five years for performing illegal operations.

A Lank County assize court jury acquitted the 71-year-old physician yesterday on a charge of killing Eva Elizabeth McLean, an elderly doctor's bed partner, but convicted him on a charge of performing illegal operations. The jury was out more than three hours.

Accompanied by Major E. J. King, M.C. of London, and Clifford White, of Harf, Alta., well known Canadian mountaineer, the party left Talla Lake, B.C., March 18 to pierce the wilderness. Their supplies were carried by a pack train of 21 horses, hauled by four pack mules.

## Electric Refrigerator Week

April 14th to 21st

SEE THE DISPLAYS

At Your

Electrical Refrigerator Dealer's

SHOWROOM

(Monday to Friday)

The very day an ELECTRIC REFRIGERATOR starts serving you it will start saving for you as well. It enables you to take advantage of special food prices on bargain days . . . SAVINGS which will add up dollars and dollars each month.

CONSIDERING THESE ACTUAL

AND this is not the only way that an ELECTRIC REFRIGERATOR will save for you. Think of the milk, the cream, the butter, the eggs, the vegetables! It will keep from spoiling. THAT'S SAVING. Think of the countless inexpensive frozen desserts you can so easily prepare. THAT'S SAVING.

THINK of the left-overs you now throw away that could be kept in an ELECTRIC REFRIGERATOR and made into various appetizing dishes. THAT, TOO, IS A SAVING. Why delay having this convenience and economy in your home?

School Children: Your entries in the Refrigeration Contest for the 38 Cash Prizes must be postmarked today!

## THIS CURIOUS WORLD

by LARRY FERGUSON

WITH THE EXCEPTION OF THE RARE MAN-EATERS, TIGERS, IF UNMOLESTED, ARE NO MENACE TO HUMAN LIFE! ANIMAL MUST PROTECT ITSELF.

THEY CANNOT CLIMB TREES, ALTHOUGH THEY BELONG TO THE CAT FAMILY.

THEY PROWL ABOUT AT NIGHT FOR PREY, AND OFTEN COVER TWENTY MILES, BETWEEN SUNSET AND DAWN.

### THE TIGER

IS COMMONLY ASSOCIATED WITH INDIA AND THE STEAMING JUNGLES OF THAT COUNTRY... BUT THE LARGEST TIGERS IN THE WORLD ARE FOUND IN THE SNOW-SWEPT AREAS OF NORTHERN CHINA AND SIBERIA!

TIGERS ARE NOT CRUEL! THEY KILL MOSTLY FOR SOMETHING TO EAT, AND TEND MERELY FOR THE PLEASURE OF IT, AS DOES CIVILIZED MAN! DEER FORM THE GREATER PORTION OF THE TIGER'S PREY, AND ONE DEER EVERY FOUR OR FIVE DAYS IS NECESSARY TO KEEP HIM SATISFIED.

ANY THOUSANDS OF YEARS AGO, BACK IN THE PLEISTOCENE AGE, THERE LIVED A TIGER LARGER THAN ANY WHICH NOW EXISTS... THE GREAT SABRE-TOOTH, WITH EIGHT-INCH TUSKS, WHICH IT USED AS DAGGERS, THIS FORMIDABLE BEAST ROAMED OVER WHAT NOW IS NORTH AMERICA.

## FRECKLES AND HIS FRIENDS

By Blosser

OSCAR, IF YOU DO THAT AGAIN, I'M GOING TO SEND YOU AWAY FROM THE TABLE!

AW, GEE, BUT I'M HUNGRY AS A BEAR, MOM!

WELL, THAT'S NO EXCUSE FOR YOU TO PILE FOOD ON YOUR SPOON, AND TRY TO TAKE THE PLATEFUL IN ONE BITE!

OSCAR!

IT'S A GOOD THING YOU'RE FINISHED, OR I'D HAVE SENT YOU AWAY FROM THE TABLE WITHOUT THE REST OF YOUR LUNCH!

WHAT HAVE YOU GOT THERE, OSSIE?

IT'S SOME CHEMISTRY STUFF THAT MY UNCLE FREDDIE SENT ME... BOY! YOU CAN DO ALL KINDS OF THINGS WITH IT!

OOP!

IS THAT ONE OF THE THINGS YOU CAN DO?

HERE'S AN EXPERIMENT I'M GOING TO TRY... IT'S SUPPOSED TO PRODUCE A SLIGHT EXPLOSION!!

IT SAYS: TAKE CONTENTS OF BOTTLE MARKED 'A' AND POUR INTO IT A TEASPOONFUL OF POWDER MARKED 'B', AND -----

OH! OH!

HEY! WAIT A MINUTE... I HAVEN'T DONE IT YET!!

NOT ON YOUR LIFE! I KNOW YOU TOO WELL!

BOY! WHEN OSSIE SAYS A TEASPOONFUL HE MEANS IT!!
